

Rx

Comfort Prescription  
to improve your  
recovery at home.

**Mouth-Mate™**  
Pain-free brushing as you heal.

It's been 3 days since  
your dental appointment.

It's time to use  
Mouth-Mate!

Dr. 

We're making it easier for you to feel  
and heal better at home.

**Mouth-Mate™**  
Pain-free brushing as you heal.

## VERY IMPORTANT!

Please follow the post-op  
instructions that your  
dentist has given you!

Reduce pain, infections  
and improve healing  
at home!

Begin using Mouth-Mate  
on the 3rd day following  
your procedure!

# Mouth•Mate

## Your Mouth Challenges

Recovery can be painful and challenging, but it doesn't have to be.

Afraid to brush near a wound, sore or sutures as you brush?

Inflammation, swelling and infections can occur due to poor hygiene.

Remember, it takes 1-2 weeks to heal and disrupting the surgical site can easily happen while brushing.

## Mouth-Mate's Answers

- Makes the recovery more comfortable, easier and faster!
- Gives you confidence and eliminates the fear of brushing because your wound is protected!
- Helps you brush your teeth to improve hygiene and healing!
- Covers the area while you brush to preserve your new dental work!
